Dividends

Dividends received by individuals from South African companies are generally exempt from income tax, but dividends tax at a rate of 20% is withheld by the entities paying the dividends to the individuals. Dividends received by South African resident individuals from REITs (listed and regulated property owning companies) are subject to income tax and non-residents in receipt of those dividends are only subject to dividends tax.

Foreign Dividends

Most foreign dividends received by individuals from foreign companies (shareholding of less than 10% in the foreign company) are taxable at a maximum effective rate of 20%. No deductions are allowed for expenditure to produce foreign dividends.

Interest and Exemptions

- Interest from a South African source earned by any natural person under 65 years of age, up to R23 800 per annum, and persons 65 and older, up to R34 500 per annum, is exempt from taxation.
- Interest is exempt where earned by non-residents who are physically absent from South Africa for at least 182 days during the 12 month period before the interest accrues and the debt from which the interest arises is not effectively connected to a fixed place of business in South Africa.

Retirement Fund Contributions

Amounts contributed to pension, provident and retirement annuity funds during a year of assessment are deductible by members of those funds. Amounts contributed by employers and taxed as fringe benefits are treated as contributions by the individual employee. The deduction is limited to 27.5% of the greater of remuneration for PAYE purposes or taxable income (both excluding retirement fund lump sums and severance benefits). Furthermore, the deduction is limited to the lower of R350 000. Any contributions exceeding the limitations are carried forward to the following year of assessment and are deemed to be contributed in that following year. The amounts carried forward are reduced by contributions set off against retirement fund lump sums and against retirement annuities.

Medical Expenses and Disability Expenses

In determining tax payable, individuals are allowed to deduct –

- monthly contributions to medical schemes (a tax rebate referred to as a medical scheme fees tax credit) up to R347 each for the individual who paid the contributions and the first dependant on the medical scheme and R234 for each additional dependant; and
- in the case of –
 - an individual who is 65 and older, or if an individual, his or her spouse, or his or her child is a person with a disability, 33.3% of the sum of qualifying medical expenses paid and borne by the individual and an amount by which medical scheme contributions paid by the individual exceed 3 times the medical scheme fees tax credits for the tax year; or
 - any other individual, 25% of an amount equal to the sum of qualifying medical expenses paid and borne by the individual and an amount by which medical scheme contributions paid by the individual exceed 4 times the medical scheme fees tax credits for the tax year, limited to the amount which exceeds 7.5% of taxable income (excluding retirement fund lump sums and severance benefits).

Donations

Deductions in respect of donations to certain public benefit organisations are limited to 10% of taxable income (excluding retirement fund lump sums and severance benefits). The amount of donations exceeding 10% of the taxable income is treated as a donation to qualifying public benefit organisations in the following tax year.

ALLOWANCES

Subsistence Allowances and Advances

Where the recipient is obliged to spend at least one night away from his or her usual place of residence on business and the accommodation to which that allowance or advance relates is in the Republic of South Africa and the allowance or advance is granted to pay for—

- meals and incidental costs, an amount of R493 is deemed to have been expended;
- incidental costs only, an amount of R152 for each day which falls within the period is deemed to have been expended

Where the accommodation to which that allowance or advance relates is outside the Republic of South Africa, a specific amount per country is deemed to have been expended. Details of these amounts are published on the SARS website under Legal Counsel / Secondary Legislation / Income Tax Notices.

Travel Allowances

Rates per kilometer, which may be used in determining the allowable deduction for business travel against an allowance or advance where actual costs are not claimed, are determined by using the following table:

Value of the vehicle (incl. VAT) (R)	Fixed cost (R p.a.)	Fuel cost (c/km)	Maintenance cost (c/km)
0 - 95 000	29 836	131.7	40.9
95 001 - 190 000	52 889	147.0	51.1
190 001 - 285 000	76 033	159.7	56.3
285 001 - 380 000	96 197	171.8	61.5
380 001 - 475 000	116 438	183.8	72.3
475 001 - 570 000	137 735	210.8	84.9
570 001 - 665 000	159 031	218.0	105.5
exceeding 665 000	159 031	218.0	105.5

Notes:

- 80% of the travelling allowance must be included in the employee's remuneration for the purposes of calculating PAYE. The percentage is reduced to 20% if the employer is satisfied that at least 80% of the use of the motor vehicle for the tax year will be for business purposes.
- No fuel cost may be claimed if the employee has not borne the full cost of fuel used in the vehicle, and no maintenance cost may be claimed if the employee has not borne the full cost of maintaining the vehicle (e.g. if the vehicle is covered by a maintenance plan).
- The fixed cost must be reduced on a pro-rata basis if the vehicle is used for business purposes for less than a full year.

- The actual distance travelled during a tax year and the distance travelled for business purposes substantiated by a log book are used to determine the costs which may be claimed against a travelling allowance.

Alternatively:

- Where an allowance or advance is based on the actual distance travelled by the employee for business purposes, no tax is payable on an allowance paid by an employer to an employee up to the rate of 418 cents per kilometre, regardless of the value of the vehicle. However, this alternative is not available if other compensation in the form of an allowance or reimbursement (other than for parking or toll fees) is received from the employer in respect of the vehicle.

OTHER DEDUCTIONS

Other than the deductions set out above an individual may only claim deductions against employment income or allowances in limited specified situations, e.g. bad debt in respect of salary.

FRINGE BENEFITS

Company Car

- The taxable value is 3.5% of the determined value (the cash cost including VAT) per month of each vehicle. Where the vehicle is:
 - - the subject of a maintenance plan when the employer acquired the vehicle the taxable value is 3,25% of the determined value;
 - - acquired by the employer under an operating lease the taxable value is the cost incurred by the employer under the operating lease plus the cost of fuel.
- 80% of the fringe benefit must be included in the employee's remuneration for the purposes of calculating PAYE. The percentage is reduced to 20% if the employer is satisfied that at least 80% of the use of the motor vehicle for the tax year will be for business purposes.
- On assessment the fringe benefit for the tax year is reduced by the ratio of the distance travelled for business purposes substantiated by a log book divided by the actual distance travelled during the tax year.
- On assessment further relief is available for the cost of licence, insurance, maintenance and fuel for private travel if the full cost thereof has been borne by the employee and if the distance travelled for private purposes is substantiated by a log book.

Interest-Free or Low Interest Loans

The difference between interest charged at the official rate and the actual amount of interest charged, is to be included in gross income.

Residential Accommodation

The value of the fringe benefit to be included in gross income is the lower of the benefit calculated by applying a prescribed formula or the cost to the employer if the employer does not have full ownership of the accommodation.

The formula will apply if the accommodation is owned by the employee, but it does not apply to holiday accommodation hired by the employer from non-associated Institutions.
