General Software Update

NITS UPDATE MAY 2022 - RELEASE 7.3

PLEASE TAKE NOTE OF THE FOLLOWING AMENDMENTS AND ENHANCEMENTS

WITHIN THE ENCLOSED UPDATE 7.3 May 2022

PAYDAY PRIME

1. All version numbers have been updated to 7.3.
2. The NITS22 Error Report has been enhanced to show directive number errors.
3. There is a new option for IOD/Maternity leave to have them work out days differently as other leave types in their calculation of days ie: Calendar days or working days.
4. Numerous EFT Countries in Africa have been added.
5. The error's Leave File full and Increase file full have been changed so that the transactions will search for the next open number instead of giving an Error.
6. If an error in on the data occurs in Month End Procedure the system will automatically restore the auto backup and the user may then Contact PayDay Support for help.
7. The UIF ACP path will now contain all 3 different file formats for upload to UIF.
8. The latest OID Ceilings are contained in this update if they have not yet been applied.
9. Mauritius Tax Tables have been updated.

PAYDAY VIRTUAL HCM
