

RELEASE NOTES

**MAINTENANCE
UPDATE 8.8
June 2025**

MAINTENANCE UPDATE JUNE 2025

RELEASE 8.8

Please take note of the following amendments and enhancements with the enclosed update 8.8

01

GENERAL NOTES

- All version numbers have been updated to 8.8
- **Mandatory Update: Please make sure this update is loaded before doing Month End from June to July**

PAYROLL SOFTWARE

PRIME

Africa Regional Compliance

- **Malawi:**
 - New Malawi tax tables implemented.
- **Kenya:**
 - Updated Tax Certificate (P9) format in line with new local compliance requirements.
- **Lesotho:**
 - 2025 Tax Certificates now available.
 - New tax tables for the 2025-2026 tax year applied.

South Africa STATS SA Reporting

- New STATS SA Report – 0277-E refers to a section of the Quarterly Employment Statistics (QES) survey conducted by Statistics South Africa. It specifically covers gross earnings, bonuses, overtime, severance and redundancy payments—broken down monthly and by payroll frequency (weekly, fortnightly, monthly, etc.)—to help monitor labour market earnings trends.

Municipality Clients – Key Enhancements

- **mSCOA Compliance**
 - mSCOA Version 6.9 released in line with National Treasury's update.
[Click here](#) to view the new mSCOA Instructions.
- **Budget Report Enhancement – New Report: REP-SCOAB**

A purpose-built tool to identify data inconsistencies before running budget processes. This will help ensure accuracy and compliance.

HUMAN CAPITAL SOFTWARE

PRIME

- A+ auto generated transactions at the beginning of a new cycle will now include a remark "start of new cycle" – this transaction in the history file is only applicable for annual cycle roll overs, not monthly cycle roll overs.
- New leave types added for the purpose of recording surrogacy leave, acting leave and ministry leave.
- Hardcoded password setting report will now include the ESS set up of the PayDay user.

VISUAL

- Special note on the landing page regarding cancellation of a leave application.
- The headings on the queries screen are now freeze pane headings.
- A Special note was added to the Process Finale and Override Approvals screen to indicate that a maximum of 200 application transactions will display at a time to aid with the speed and the timeout challenges experienced.
