for mSCOA 7.1 Update Notes

- **Financial Year End Registration**

The below image indicates that the PayDay system must be updated to 9.2 and all companies must be updated and registered.

3. New Feature – Old Mutual / PayDay Interface

Old Mutual has partnered with PayDay Software Systems to enhance their current payroll deduction offering. This partnership will create a seamless, integrated, and accurate deduction process, improving the time spent on manual capturing of data.

HUMAN CAPITAL SOFTWARE

VISUAL

1. The Manager/s Approval Screen

This screen now features a new button that allows the manager to review the approval process for the transaction they are about to approve or reject. This view will include details of the managers who approved the transactions at the levels preceding the current one.

2. The View Completed Approvals Screen

This screen has been further enhanced to enable administrators to search through over 200 transactions for each employee, provided that the employee selection box has been completed.

3. Home Screen Notifications Section

An additional message has been added to the ESS, Home Screen Notifications section.

4. Process Final Approvals section

The Override button in the Process Final Approvals section has been modified to read Override / Reject Approvals.
